VS 吳柏衡：What would we thought when a young patient with bed sore?</p> <p>A1. R2 許哲彰：May related to muscle power weakness.</p> <p>Q2. VS 吳柏衡：Did PSY disease caused weakness?</p> <p>A2. R2 游姿寧：Yes some psy disease may related to physiologic change</p> <p>Q3. VS 吳柏衡：What should first check in patient with weakness?</p> <p>A3. R1 張正霆：Blood sugar</p> <p>Q4. VS 吳柏衡：What is the most important in treat weakneaa</p> <p>A4. R2 吳志華：DDx</p> <p>Q5. VS 吳柏衡：In PSY patient should we consult PSY?</p> <p>A5. R2 吳志華：yes PSY still need to be consulted for psy survey</p> <p>Q6. VS 吳柏衡：What should we do to tx hypoglycemia?</p> <p>A6. R1 張正霆：use D50W IV injection</p> <p>Q7. VS 吳柏衡：What can we DDx weakness</p> <p>A7. R2 許哲彰：Brain CT need to performem first to r/o intracranial lesion</p> <p>Q8. VS 吳柏衡：Is there any treatment for GBS?</p> <p>A8. R2 許哲彰：PP</p> <p>Q9. VS 吳柏衡：What did you found in the case</p> <p>A9. R2 游姿寧：The patient has psy problem thus would mask his neurologic problem</p> <p>Q10. VS 吳柏衡：When to consult neurologist for evaluation the case?</p> <p>A10. R2 許力云：When neurologic problem was suspected</p>	

內容摘要（續）：

EBM and ethic

Q1.VS 吳柏衡：What should we know when visiting a psy patient

A1.R2 吳志華：We should be careful of the other underlying condition

Q2.VS 吳柏衡：What is GBS

A2.R2 許哲彰：It's a kind of AIDP

Key point

1.PSY patient would have neuro condition

2.GBS is tx by PP

3.We should be care of the underlying disease of PSY

VS comment

1. VS 吳柏衡： This case told us to be careful when a psy patient has some other condition which indicated medical problem.

紀錄：R2 許力云
